Cyber Immersion

Hands on Cyber Security Training for Professionals

Africa Cyber Immersion Centre
acic
Engage | Educate | Empower

Technical Teams - System Admins, DB Admins, Network Admins and Security Professionals

▶ **Level 1 - Security Assessment and Penetration Testing**

A 5 day course focusing on blue teaming exercises to defend against both real attackers and Red Teams.

▶ **Level 2 - Certified Ethical Hacker (CEH)**

A 5 day Network Offensive Training program that empowers teams with extensive skills around hacking measures and countermeasures.

▶ **Level 3 - Cyber Defense and Network Security**

A 5 day Security Operations and Advanced Threat management course that equips team with Malware Analysis, Digital Forensics and Security Monitoring skills needed to detect and respond to cutting edge threats.

IT Managers, Audit, Governance, Risk, and Compliance Team

▶ **Level 1 - Cyber Visibility and Exposure Quantification (CVEQ™) Framework Fundamentals**

This is a 5 day course that focus on how organisations measures the effectiveness of Cybersecurity controls, ways of collecting, validating, packaging and delivering these metrics to Executives and Board.

▶ **Level 2 - CVEQ™ Framework Advanced**

A 5 day course that focuses on practical implementation of technical controls for identifying, measuring effectiveness and determining cyber risk exposure for an organisation.

HR, Legal, Finance, Operations and Procurement Teams

▶ **Level 1 - Masterclass for Business Managers**

This 2 day intensive boot camp is a fast track entry into the world of cybersecurity.

The program demystifies the roles of Non-IT teams in upholding and managing Cybersecurity in the organisation.

Executives and Board Members

▶ **Level 1 - Seminar for Board Members and Senior Executives**

This boot camp provides Senior Managers and Board Members with a thorough operational knowledge of running and managing Cyber security.
